

Game play

In Game Play you play an imaginary opponent over 10 ends of singles. By consistently drawing within 2 mat lengths you will beat your opponent in this game play.

Good bowls will add to your score but any poor bowls will add to your opponents score.

Similar to Game Play 2 but keep the mat on the 2 metre mark then vary the length of each end using short, medium and long ends.

Play 2 F/H bowls then 2 B/H bowls on each end to simulate a real game.

Game play scoring

Score one shot for each bowl that finishes within 2 mat lengths of the original jack position.

Bowls that finish greater than 2 mat lengths score 1 shot for your opponent.
